

The True Name

SATSANG INTENSIVE FOR BROTHERS OF THE LEAF

The true name I have had before time is simply Z. This is the name of the ages that embodies within it the full love, wisdom, and power of the ECK in all Its manifestations. It is the best form for spiritually advanced initiates to use, for all the waves of the Audible Life Stream converge at one point in It. It is the Jewel of God for all with the ears to hear. This is the name by which I am most commonly known among the Vairagi Order.

The name Z, even as the letter of the alphabet, is the bridge that links the ends of the physical universe with the beginnings of the invisible ones. The letter z is the end of the English alphabet, but the source from which z derives continues practically without end into the spiritual planes—and this is the ECK that I speak of, the source of all living things.
