

The Days of Light and Hope

Q : As we near the official transition from the first major cycle of ECKANKAR (1965–2025) to the next (2025–2085), are there some words of encouragement and wisdom you might share with us about what is on the horizon for ECKANKAR?

A : The first sixty-year cycle could be called The New Dawning. This takes in the term of Paul Twitchell, who introduced the ECK teachings to modern society, through to my term.

The second sixty-year cycle could be named The Days of Light and Hope. The Kal's grip on the world consciousness will be as tight as ever, so there will be wars and rumors of war. Despite that, the followers of ECK will find new ways to get the message to seekers, though harassed by Kal agents. Thus, The Days of Light and Hope.

You may be confident that ECKANKAR will continue to thrive in the future.

Harold

Did you know?

October 22, 2024, began the final year of both a sixty-year and twelve-year cycle in ECKANKAR. This culmination only happens once every sixty years. It can be a significant time of spiritual turning points and upliftment if a person keeps their face toward God.
