Creative Dimensions of Soul

By Sri Doug Kunin

Who Are You Really?

You are Soul, an eternal atom of the True Reality. You are an immortal spark of spiritual awareness and creativity. Soul exists because God loves It.

You are not a physical body with a soul. You are Soul wearing a physical body—along with several other bodies, too, corresponding to each of the cosmic dimensions. Every Soul is a unique, divine Being.

Levels of Living

This diagram shows the bodies of your being. As Soul, you live eternally in the worlds of pure Spirit, beyond the dimensions of duality. Each dimension is an ascending level of consciousness. Most importantly, Soul, the Divine Self, brings life to your existence on all levels.

Each body serves as an instrument of Soul's choices. Each body gives you a unique avenue of creative expression, ways to manifest who you really are. Your bodies serve as instruments through which you express your unique vibrational fingerprint of Truth, Love, and Beauty.

Connecting with the God Current

Direct connection with the God Current—the Light and Sound of God—reveals the living wisdom within you that cannot be found in any earthly book. This connection, using the sacred mantra of *HU*, can be made anyplace, anytime. It is the Sound of Soul.

This Sound awakens you to the God knowledge already within you. You begin to live to your highest spiritual potential—to enjoy a life of true self-direction, love, and wisdom, free from limiting patterns (karma).
